

# 20th International Spherical Torus Workshop (ISTW2019)

## Tuesday, 29 October 2019

### Session 03: Session 03 (09:00 - 13:00)

-Conveners: **Stephanie Diem**

time	[id] title	presenter
09:00	[35] Tokamak Energy and the high-field spherical tokamak route to fusion power	MCNAMARA, Steven
09:35	[14] Faster Fusion: ST40, engineering, commissioning, first results	GRYAZNEVICH, Mikhail
10:10	[17] Overview of recent progress on non-inductive start-up experiment in LATE	Prof. TANAKA, Hitoshi
10:45	Coffee Break	
11:10	[50] Overview of Versatile Experiment Spherical Torus (VEST): Progress and Plans	Prof. HWANG, Yong-Seok
11:45	[44] Scaling Physics of Reconnection Heating for ST Merging Startup Experiments	ONO, Yasushi
12:20	[46] Investigation of ion heating/transport process of magnetic reconnection during CS-free merging plasma startup of spherical tokamak in TS-6	Dr TANABE, Hiroshi
12:40	Group Photo
