

SOFT 2018

Monday, 17 September 2018

O1.C - ETNA Hall - ATA Hotel Naxos Beach Resort (14:30 - 15:30)

time	[id] title	presenter
14:30	[12] Deep Learning: Towards Autonomous Remote Maintenance	Mr SKILTON, Robert
14:50	[55] Reconstructing JET using LiDAR-vision fusion	Dr JONASSON, Emil
15:10	[56] Engineering and integration design risks arising from advanced magnetic divertor configurations	Dr KEMBLETON, Richard

O1.C - ETNA Hall - ATA Hotel Naxos Beach Resort (16:00 - 17:20)

time	[id] title	presenter
16:00	[57] Methodology for reverse engineering analysis of ITER as-built integrated systems	Dr FUENTES, Francisco Javier
16:20	[58] Digital valve system for ITER remote handling – design and prototype testing	SIIVONEN, Lauri
16:40	[59] Picosecond laser-induced ablation for depth-resolved analysis of first wall components in fusion devices	Dr OELMANN, Jannis
17:00	[60] High temperature microstructural stability of self-passivating W 10Cr-0.5Y alloy for blanket first wall application	Dr GARCÍA-ROSALES, Carmen
